

FLUSHMATE®

INTELLI-Flush™ Automatic Flushing System

INTELLI-Flush™, the first battery-operated retrofit for existing **FLUSHMATE** equipped water closets.

Retrofit Design Sets Touch-Free Standard for Electronic Flushing.

FLUSHMATE's INTELLI-Flush™ enables touchless, electronic sensor operation of existing *FLUSHMATE* units. Reduces the spread of bacteria, recurring odors and adds the convenience of automatic flushing. Combines all the water-saving and superior performance advantages of *FLUSHMATE* with the convenience of no-touch operation.

INTELLI-Flush Design Features:

- Battery-activated (no electricity)
- Infrared technology ensures toilets are always flushed, user pick-up or hand-wave
- Adjustable flush delay, 5 or 7 second
- Touch-free design promotes hygiene
- Greatly reduces restroom odors
- Ideal where physical flushing limitations are a concern, ADA compliant
- Quick and simple installation
- Override button included
- Contemporary design enhances restroom décor
- Choose from chrome or white on sensor trim
- Four C Cell and four AA cell alkaline batteries included
- Three year expected battery life
- 3 year limited warranty
- 24 hour flush cycle feature (Ideal for commercial applications)
